1 Launching the Application

When you first launch Discordando Music you will see the Login Menu. To access the application itself you first need to Log In with your account through this Menu. If you don't have an account yet you can create one by accessing Register Menu through the Login Menu. If you have an account but forgot your password and want to recover it you can also access Remember Password Menu through Login Menu.

1.1 Login Menu

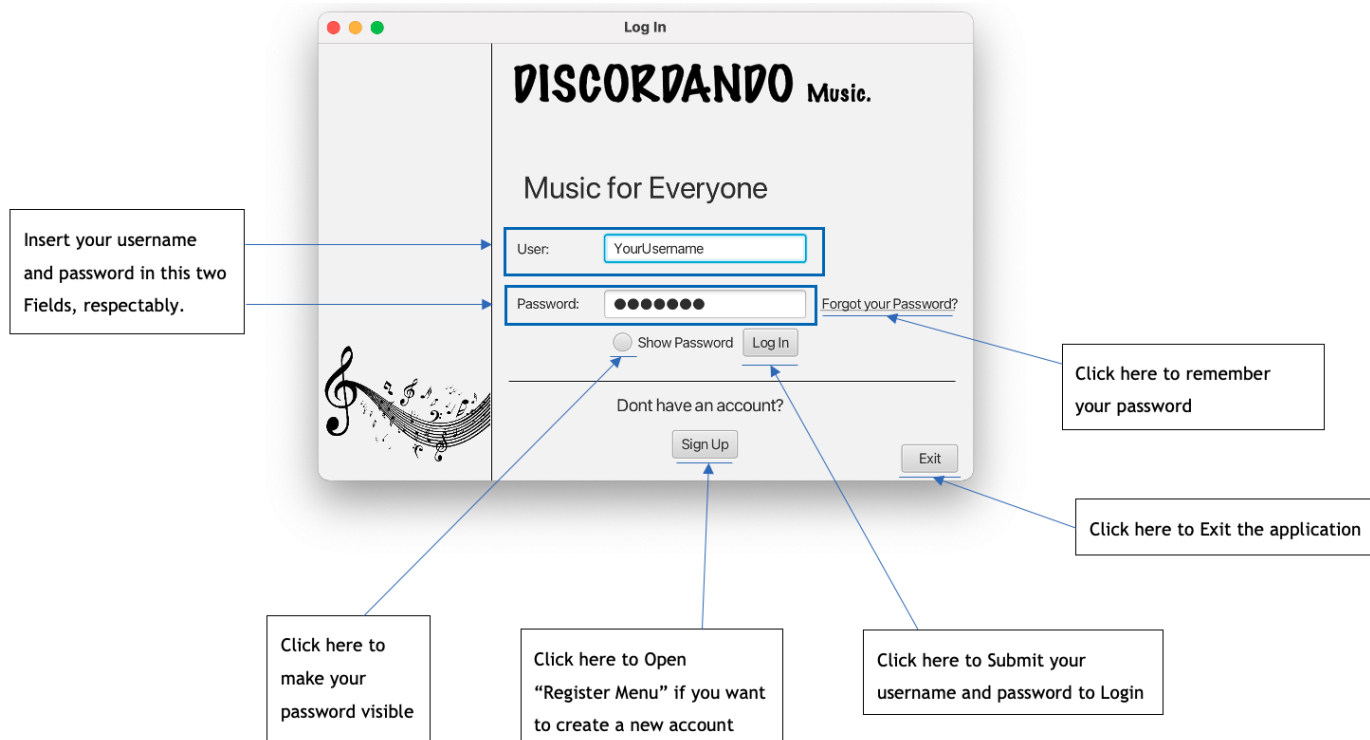

Figura 1: Login Menu

As you can see in the figure (1) the Log In Menu is very intuitive to use. It gives you access to the Remember Password Menu and Register Menu (both menus will be approached next) simply by clicking "Forgot your Password" and "Sign Up", respectively. It also gives you access to the Application if you press Log In with valid credentials inserted. It also gives you the possibility to make your password visible by clicking "Show Password". You can Exit the application using "Exit" button.

1.2 Register Menu

DISCORDANDO Music.

Register

Register with your e-mail

Your e-mail *

Confirm your e-mail *

Create a password *

Confirm your password *

User name *

* required

Insert here your data and create a password and username (email, password, and Username)

Click here to submit your register's data

Click here to return to Login Menu

Figura 2: Register Menu

Register Menu gives you the possibility to create a new account. You simply need to insert all the data required in the respective field and press "Register" as shown in figure (2). You can return to the Log In Menu using "Return" button.

1.3 Remember Password Menu

The screenshot shows a web application window titled "Remember Password" for "DISCORDANDO Music.". The main heading is "Forgot your account's Password?". Below this, there are two input fields: "Email:" with the value "myemail@gmail.com" and "Username:" with the value "MyUsername". A blue box highlights these two fields, with an annotation box to the left stating "Insert here your data (email and Username)". Below the input fields is a "Recover Password" button, with an annotation box below it stating "Click here to submit your User's data and recover your Password". To the right of the "Recover Password" button is a "Return" button, with an annotation box below it stating "Click here to return to Login Menu". On the left side of the window, there is a decorative graphic of a treble clef and musical notes.

Figura 3: Register Menu

Remember Password Menu should be used if you want to recover your forgotten password. You should insert you email and username in respective fields and press "Recover Password". Upon a success request (matching email and username) an email with your password will be invited to the respective email. You can return to the Log In Menu using "Return" button.

2 Application Navigation and Main Menu

After log in your account you will see the Application Menu which is the Menu that gives you access to all the other menus and features of Discordando Music. The following sub-chapters will show you how to navigate and use this Menu and its features.

2.1 Application Menu

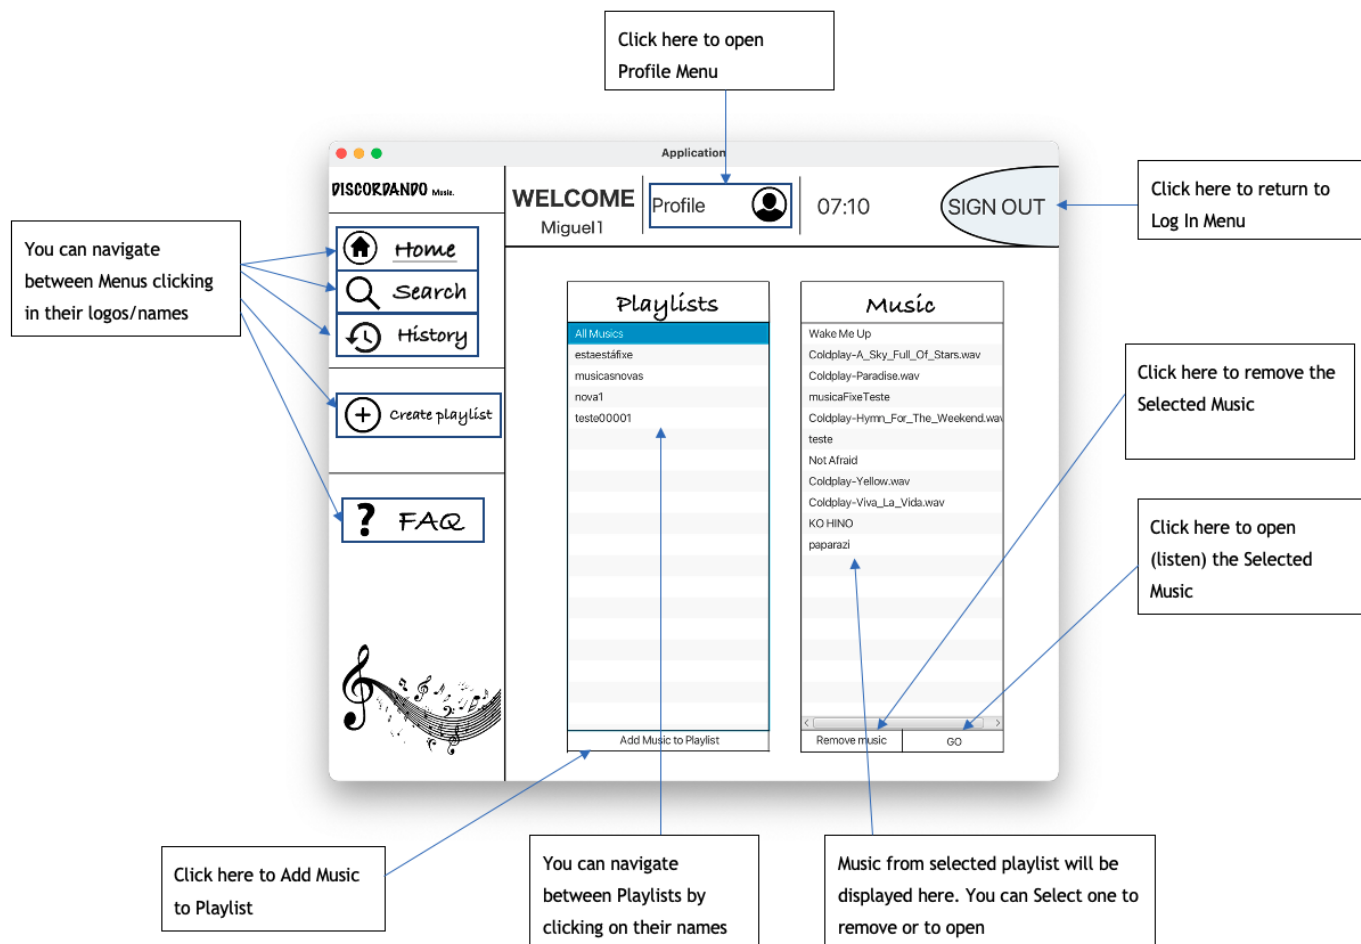

Figura 4: Application Menu

As figure (4) shows in Application Menu you have access to four different Menus on the left bar (Search, History, Create Playlist, FAQ) you can access this menus by clicking on the image or name. You can also access Profile Menu in the top of the Application Menu. By clicking in Playlist's name (that you can see in the left Item List) you will see the corresponding musics on the right Item List. You can also click "Add Music to Playlist", "Remove Music" and "Go" to do what the name of the buttons suggest respectively. By clicking "Sign out" you can return to Log In Menu.

2.2 Search Menu

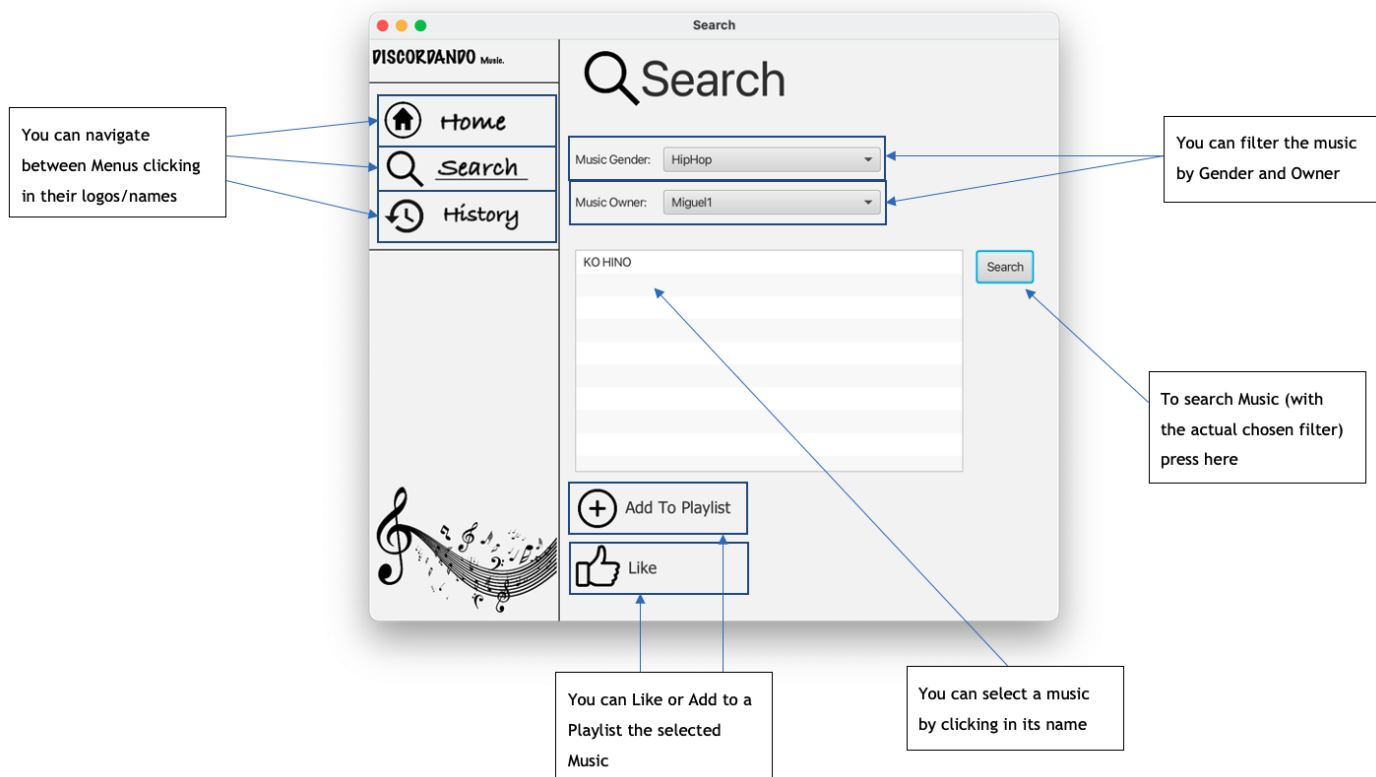

Figura 5: Search Menu

Search Menu allows you to search for new musics. It allows you a filtered search by gender and owner. You can click on the music that you want and give it a Like or add it to one of your playlists. You still can navigate throw Menus using buttons on the left bar.

2.3 History Menu

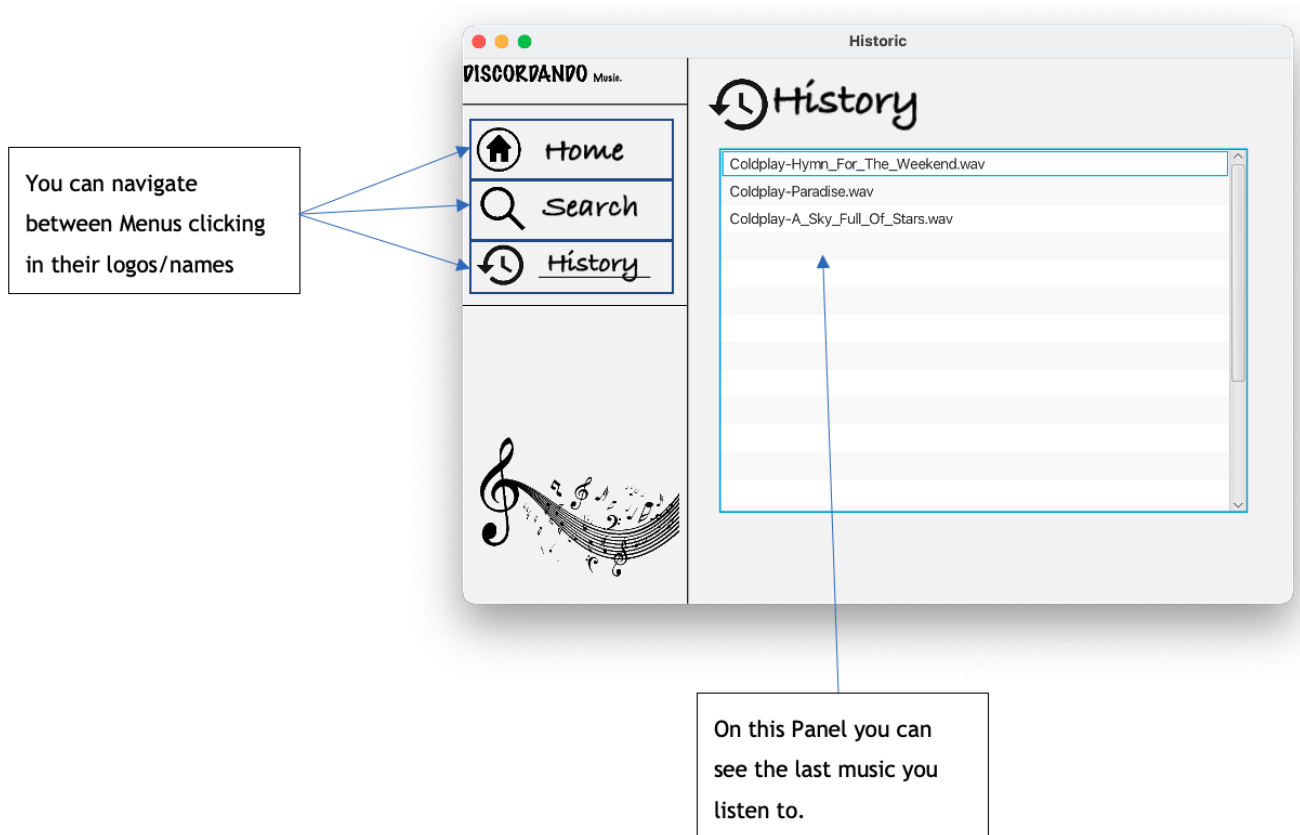

Figura 6: History Menu

History Menu shows you the last Musics you listen to. You still can navigate throw Menus using buttons on the left bar.

2.4 Create Playlist Menu

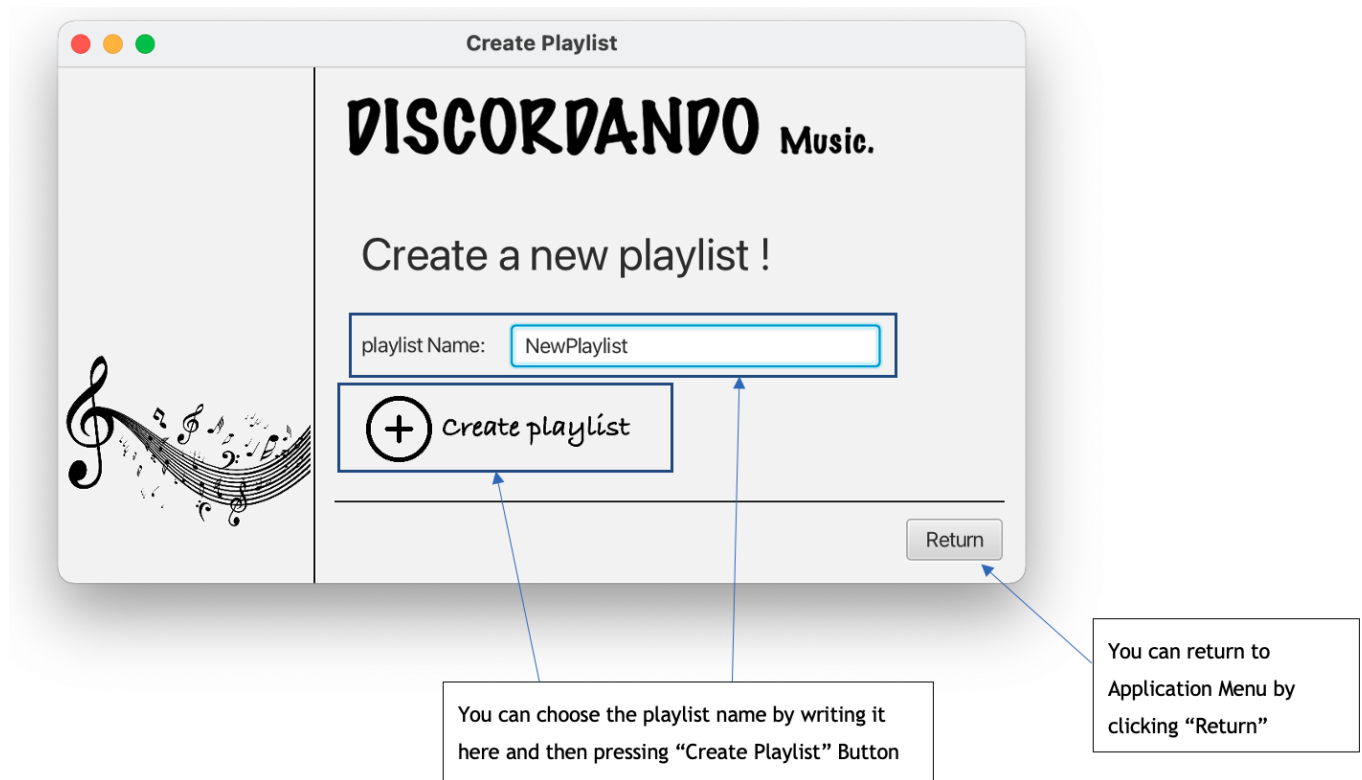

Figure 7: Create Playlist Menu

On this Menu you are able to create a new playlist. To do so you need to give it a name and press the "Add Playlist" button. You can return to Application Menu pressing "Return".

2.5 FAQ Menu

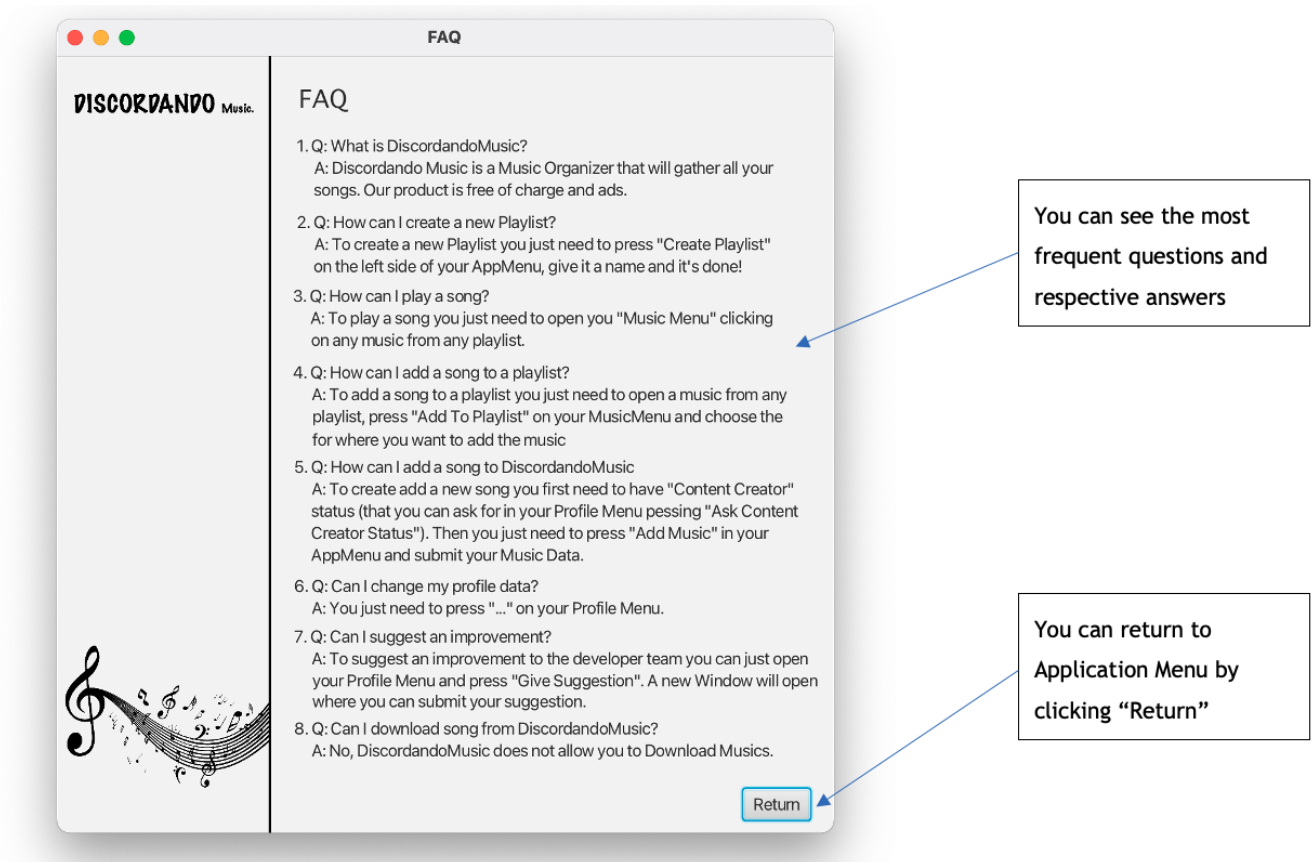

Figura 8: FAQ Menu

FAQ Menu shows you the most common questions and respective answers. You can return to Application Menu pressing "Return".

3 Profile Options

As seen in figure (4) Profile Menu can be accessed throw Application Menu. The function of Profile Menu is to give you access to your account data and some personal functionalities. For example, in Profile Menu you can check your liked and own musics (if there are any). You can also upload music to Discordando Music (if you have permissions). Permissions can be requested also in this Menu. If you are an admin you can access Admin Menu and all its options. Last but not the least you are able to change your personal data like account's email and password.

3.1 Profile Menu

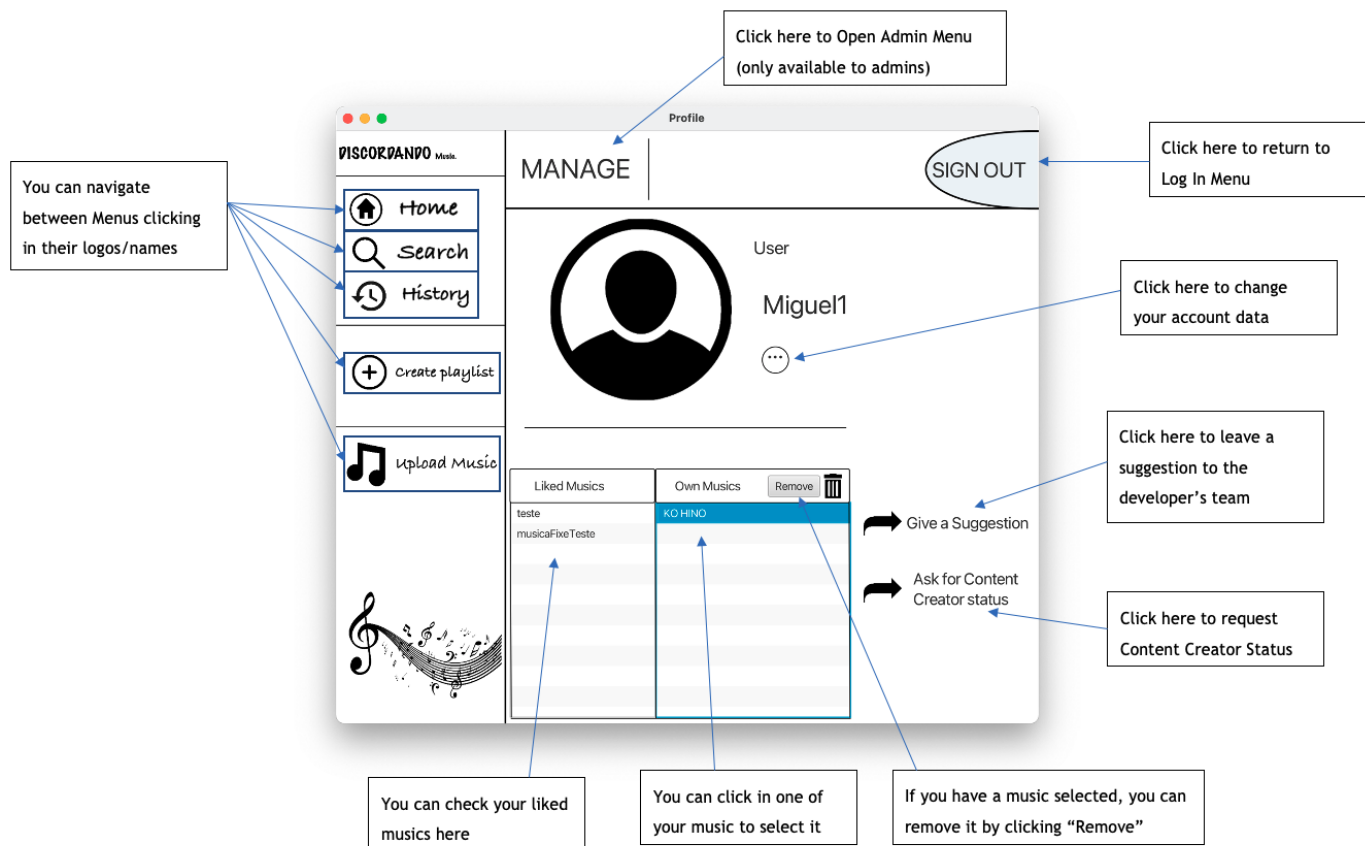

Figura 9: Profile Menu

As the figure (9) shows it is intuitive to navigate throw Profile Menu. You have access to a similar left bar Menu navigation like before in Application Menu. Liked and Own Musics are automatically loaded into their respective List Views. "Sign Out" button still available to give you the option to return to Log In Menu.

3.2 Add Music Menu

DISCORDANDO Music.

Add a New Music !

Music's Name:

Music's Genre:

Tell us where is your music available (we recomend Youtube URL)

You can choose the name, genre and give a link to your music

You can click "Add Music" to submit the data that you insert

You can return to Profile Menu clicking in "Return"

Figura 10: Add Music Menu

The Add Music Menu allows you to insert your Music Data in order to make it available on Discor-
dando Music. The figure (10) shows the Menu usage.

3.3 Suggestion Menu

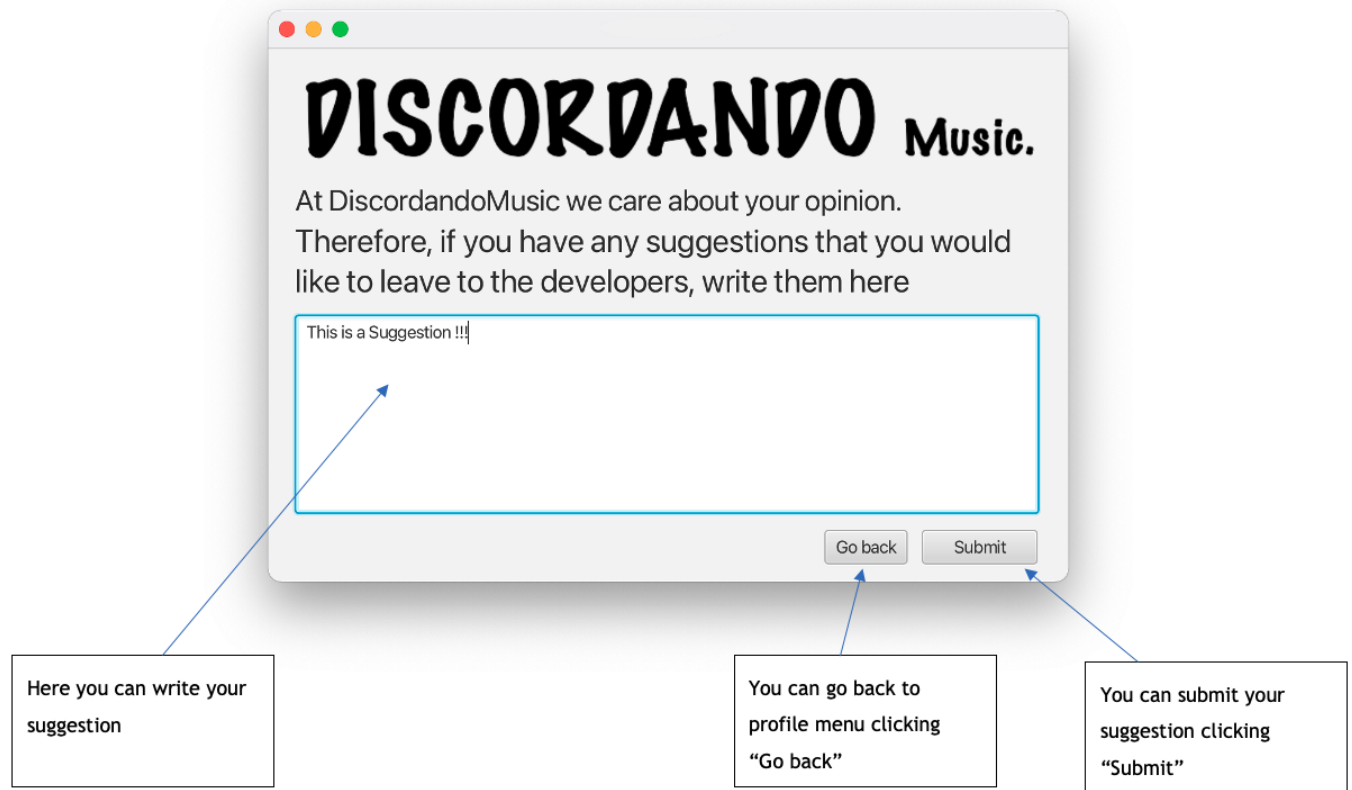

Figura 11: Suggestion Menu

The Suggestion Menu allows you to insert a suggestion to the developer's team.

3.4 Edit Account Menu

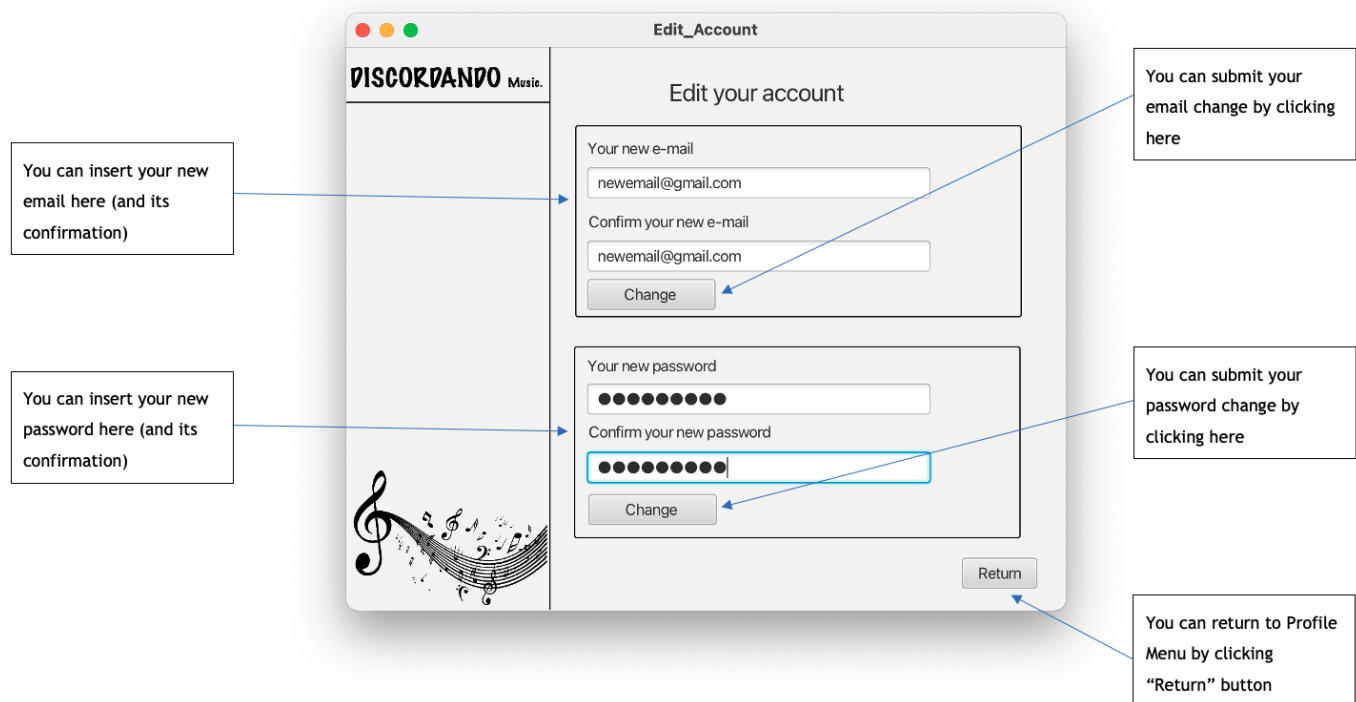

Figura 12: Edit Account Menu

The Edit Account Menu allows you to change your email and password.

4 Music Controllers

The Music Menu can be accessed by Application Menu as seen in the figure (4). Here you have access to the main Music Controllers and also Music's comments and Music's URL (if you want to find the music on the Internet).

4.1 Music Controller Menu

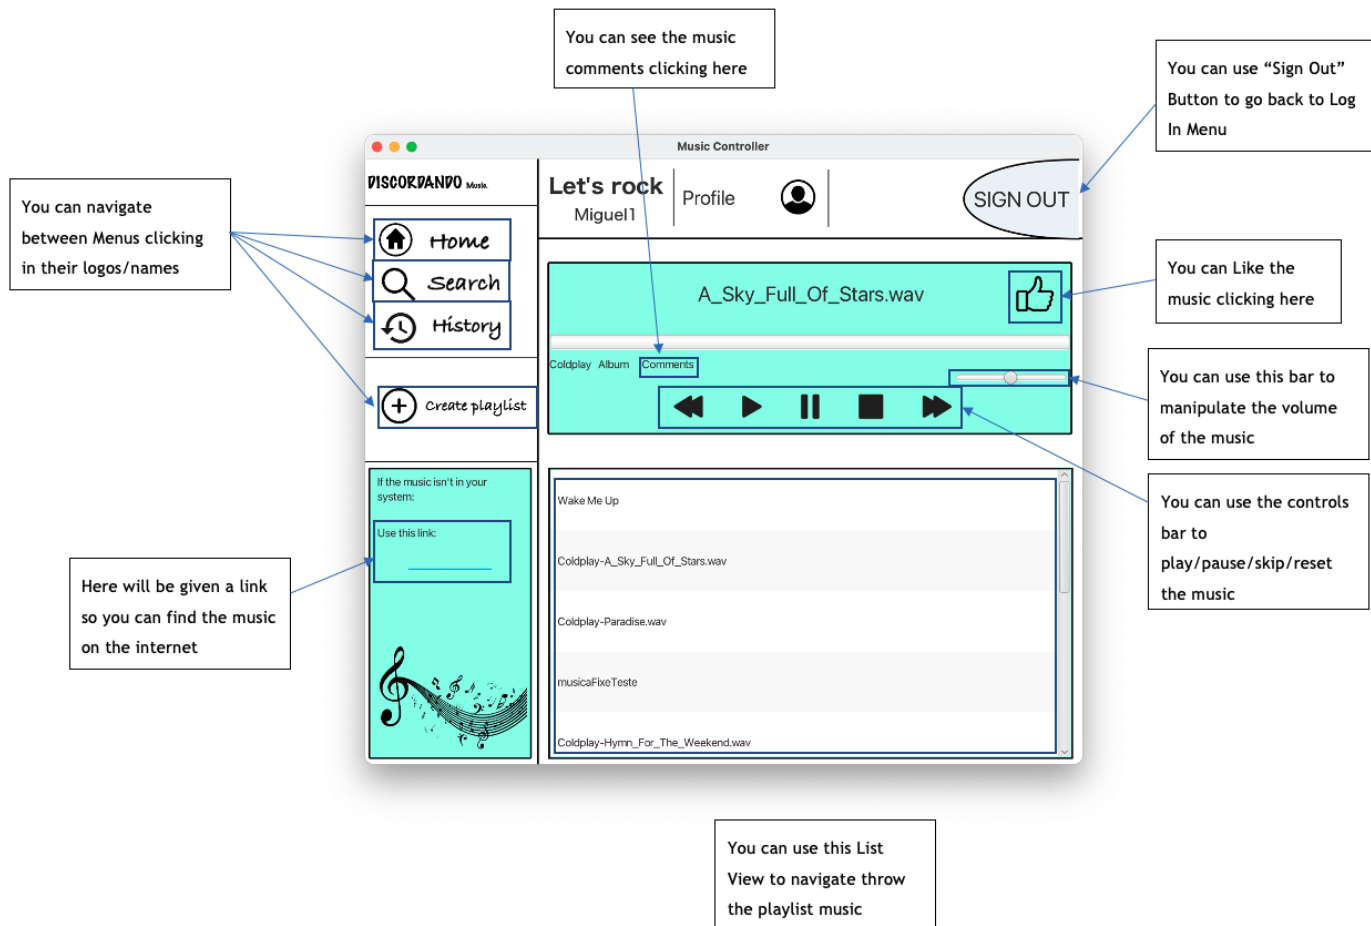

Figura 13: Music Controller Menu

Music Menu controller gives you access to menu navigation with the usual left bar. It gives you the possibility to navigate between musics by clicking in their names on the List View in the button of the Menu. You can access Comments section also throw Music Menu.

As shown in the figure there is a possibility to leave a like in a Music. The Like option is useful cause makes it easier to find the music either in you Profile Menu either in Add Music to Playlist Menu. You can know if you have liked a music or not by the appearance of the button icon. The two figures below show the different icons when you already liked a music and when you not.

Figura 14: Left -> Not Liked. Right -> Liked

Taking a closer look on the Music Controllers, figure (15) shows what which button does.

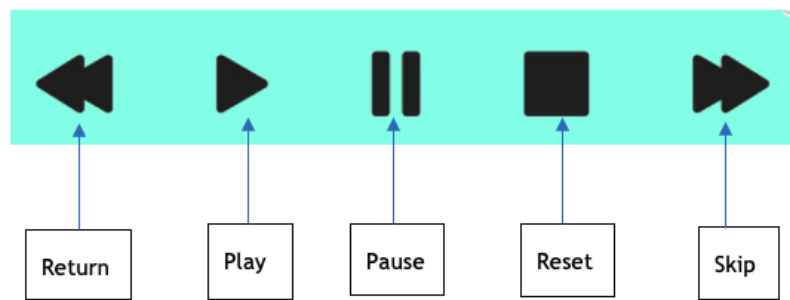

Figura 15: Music Controllers

5 Admin Functionalities

Admin Menu can be reached by clicking on Manage in Profile Menu (9). You can only access it if you have Admin Permissions. The Admin Menu gives you access to all the musics, users, requests and comments. You can remove inappropriate content.

5.1 Admin Menu

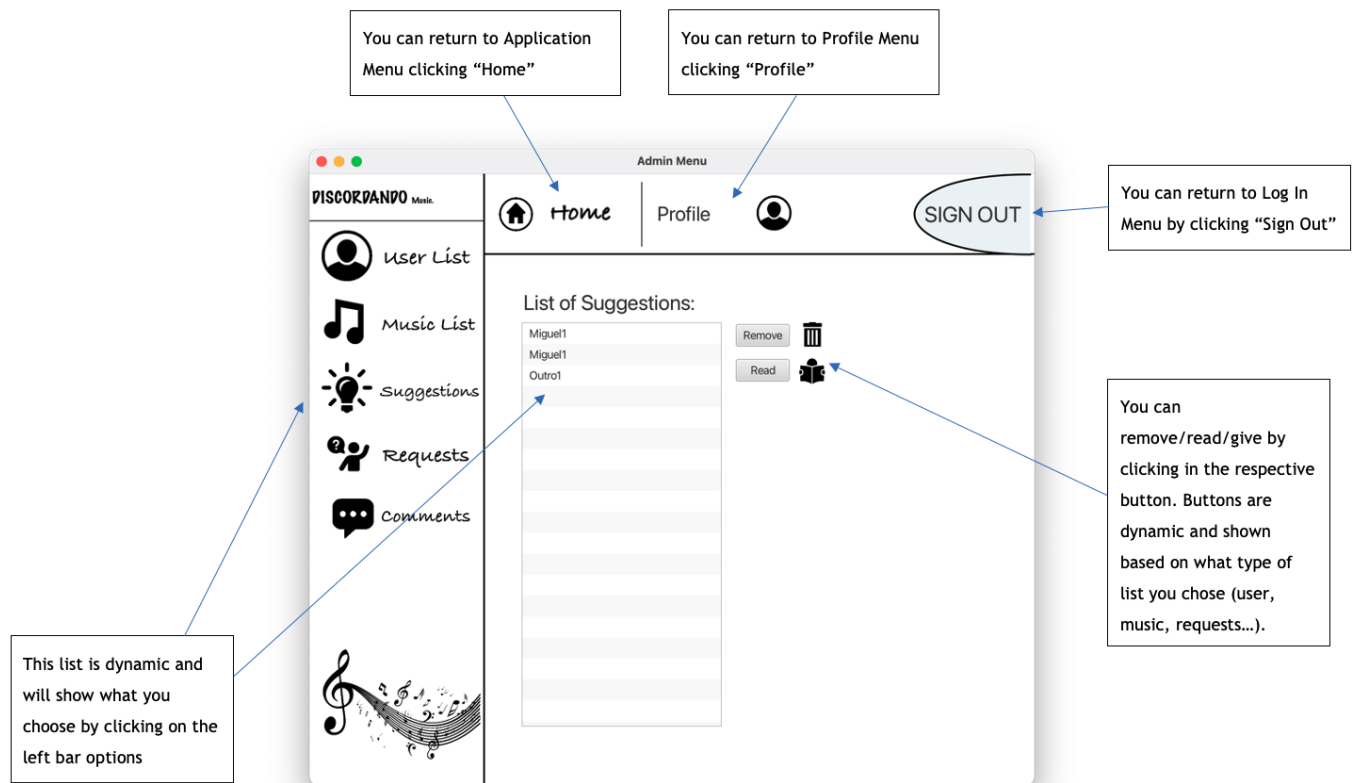

Figura 16: Admin Menu

The Admin Menu is dynamic. The content shown on the List View depends on the option chosen. The buttons available on the right of the List View are also dynamic and depends on the needs of chosen list.

The figure (16) is an example where the chosen List is "Suggestions List", below there is another example of what the Menu would look like if you press "Requests". As figure (17) shows the buttons on the right changed because the needs to "Requests List" are different.

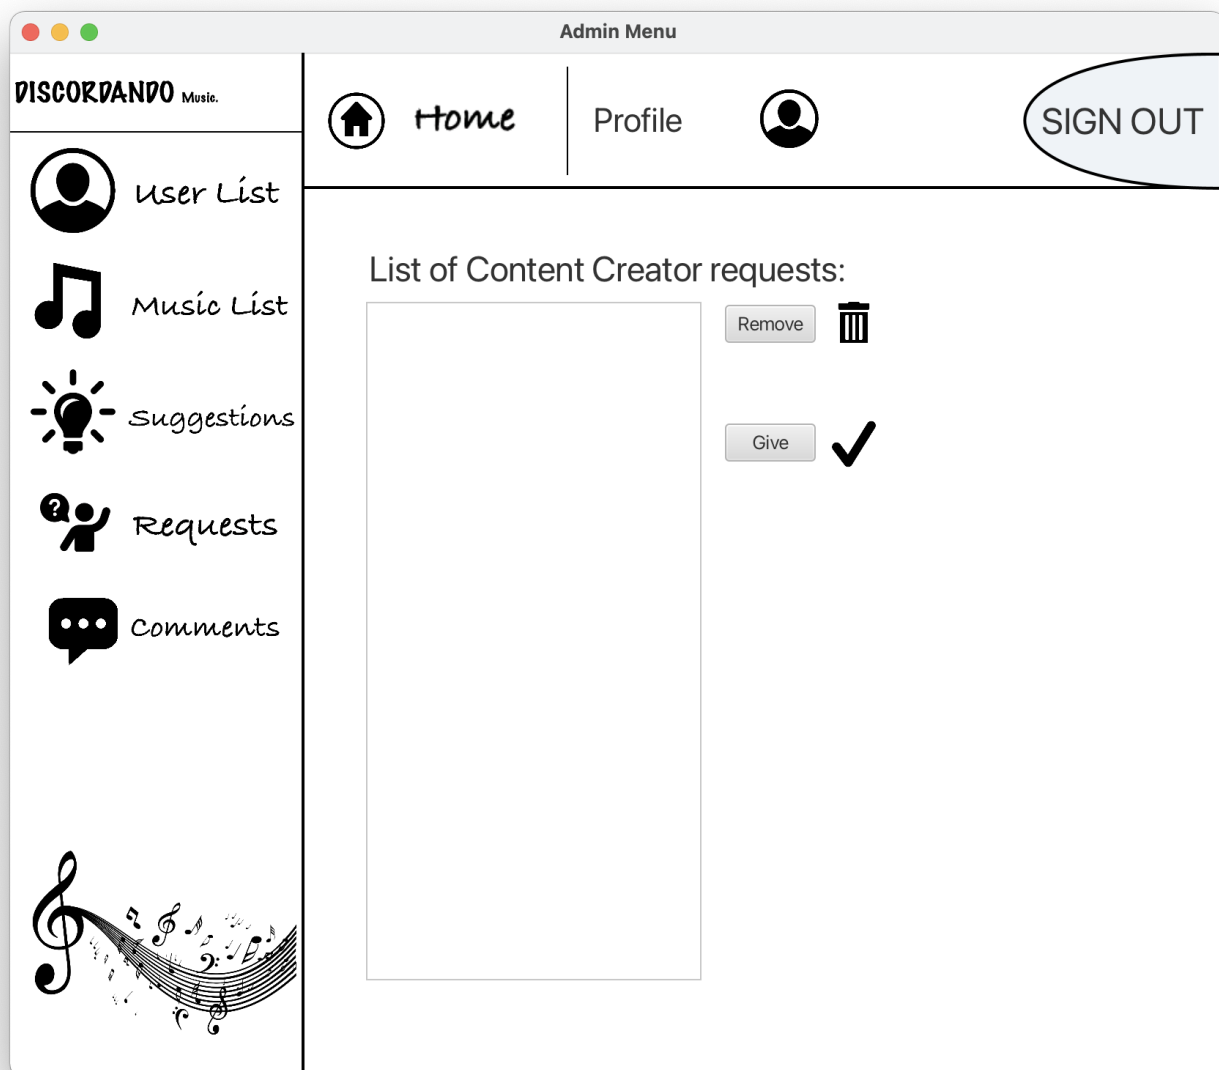

Figura 17: Admin Menu (Requests)
